**Protein Crystallography Experts**

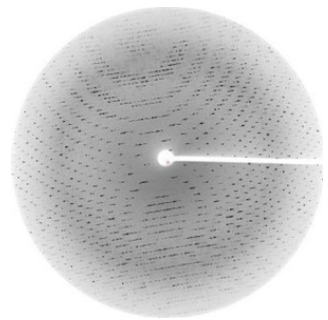

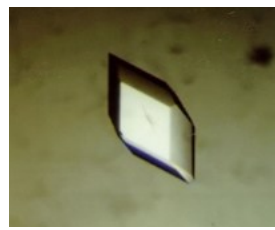

# Who We Are

Expert protein chemists specialized in x-ray crystallography with over 40 years of combined academic and industrial experience with multiple targets ranging from membrane proteins to polymerases

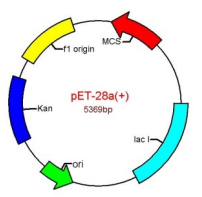

# What We Do

- We support your innovation path
- We accelerate your discovery
- We share the risk, reduce the costs
- We pave the way to your success

## GENE TO STRUCTURE

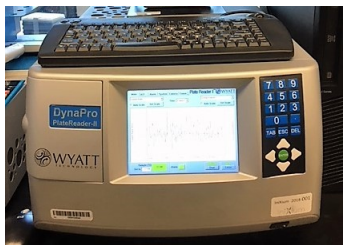

Plasmid construction

Protein production

Biophysical characterization

Protein crystallization

Structure determination

# What We Offer

- An open communication channel
- Scientist to scientist interaction
- Reliability, flexibility, and speed
- Industrial high quality service
- Total dedication to your needs

# Why Choose us

- We are passionate
- We understand your needs
- We share the same goals
- We have a broad expertise
